

## Drill Holes with Confidence and Ease!

The K-Drill Ice Auger System is designed specifically for modern high powered, brush-less hand-held cordless electric drills. It drills fast and makes for a very lightweight ice auger system. And the super-efficient chipper blade design ensures you'll be able to drill easier and with more confidence than ever.

Using a three-blade high carbon steel chipper design, this ice auger excels at re-drilling old holes. The unique centering pin greatly reduces blade jump and allows for a quick and clean hole time and time again when using a permanent fish house.

### FOR MOBILE FISHERMEN

The K-Drill will simply change the way you ice fish. By being lightweight, reliable and extremely efficient at drilling holes, it will free you from the pains of hand and gas augers.

### FOR FISH SHACKS

The composite auger flighting is designed to NOT throw ice shavings around the inside of your fish house, but instead make it very easy to remove the ice without getting ice all over the floor. Simply switch your drill to reverse and gently push the ice downward. Now that sure makes the job a lot easier!

## ELECTRIC DRILL MINIMUM REQUIREMENTS

You may use any cordless drill brand you choose, as long as it meets the following minimum requirements:

- 1) Side Stabilizer Arm (for a secure two-handed grip)
- 2) 1/2" Drill Chuck
- 3) 18 Volt/4 Amp Lithium Ion Battery (or higher)
- 4) Brush-less Motor Design
- 5) 500-750 RPM with a minimum
- 6) 725 in/lbs of torque (or higher)

The Milwaukee M18 Fuel 2703 and DeWalt Max XR series are both officially approved for K-Drill use.

## ACCESSORIES & SERVICE PARTS

IDRLEXT12" Auger Extension  
IDRLADPC Adapter for Clam Drill Plate  
KLG001 Kluge Drill Attachment  
(T-Handle Adapter to be used from StrikeMaster hand auger to electric drill)

IDRLBL6: 6" Replacement Blades (Set of 3 blades)  
IDRLBL8: 8" Replacement Blades (Set of 3 blades)  
IDRL24: Replacement Safety Cover for 6" or 8"  
IDRL26: Replacement Float for K-Drill  
IDRL28: Replacement Drive Adapter

# INTRODUCING THE K-DRILL

- The K-Drill is the Lightest and Easiest Ice Auger System Ever Developed!
- The ONLY Auger System Specifically Designed for Cordless Electric Drills!
- K-Drill Comes in Both 6" and 8" Models!

## DRIVE STEM

K-Drill requires a 1/2" drill. The auger is adaptable for attachment to certain gas auger heads.

## AUGER SHAFT

Sturdy aluminum construction with thermal wrap helps keep hands warm. Extensions are available too.

## FOAM FLOAT

Ensures the ice auger does not sink if it falls out of the drill chuck.

## AUGER FLIGHTING

K-Drill uses a durable modular plastic flighting designed to clear ice shards quickly and keep them near the hole.

## BLADE DESIGN

K-Drill uses a unique three-blade high carbon steel chipper design which chews through both fresh ice and old frozen holes.

## FREE LIFETIME BLADE RESHARPENING

Send the blades in for free resharpening when dull!  
(See [kdrillauger.com](http://kdrillauger.com) for details)

## SAFETY COVER

Quickly and easily cover the three-blade system to prevent both serious injury and keep your blades sharp.

## K-DRILL SPECS

Weight: 5 Lbs  
Length: 38"  
Flute Length: 24"  
Stem Dia: 1/2"  
Cutting Dia: 7.5" (8")  
6.0"  
Float Length: 7"  
Float Dia: 3.12"  
Shaft Dia: 1.2"

Patent #7,946,355
